Kavveri Telecom in pact with Orban

Chennai: Kavveri Telecom Products Limited, a leading Indian RF & wireless infrastructure company, and Orban Microwave Products, a premier Belgium RF and microwave systems company, have entered into a strategic business partnership for the design, manufacture and marketing of Orban Microwave's extensive products, subsystems and solutions portfolio into the Indian market. Kavveri Telecom, a publicly traded company with a turnover of over Rs 200 crore (08-09), offers a full range of world class infrastructure products and services for the wireless communications markets, including base station antennas, filters, repeaters, amplifiers, RF components and in-building and contract manufacturing solutions. ■ ENS
